

# enoline

Our **enoline** models are finished in elegant satin stainless steel with red back-lit controls on a black keyboard.

Our compact **enoline** series are available in either 4 or 8 bottle models. At only 20cm deep they can be located anywhere.

The **enoline 4** and **enoline 8** models are available with a full range of options:

- 1 or 3 volumes
- Room temperature, climate controlled, refrigerated or dual temperature
- Wine Card activated
- Digital Price Display

Refrigerated models can cool wines down to 9°C. Climate controlled models can cool and warm wines to between 9 and 20°C. Dual temperature models must be set between 9 and 20°C for the white wine area, and between 16 and 20°C for the red wine area.

**enoline 4 specifications:**

• **Room temperature models:**

530mm long, 643mm high, 200mm deep, 24kg, 110/220 Volts, 30 Watts

• **Refrigerated or climate controlled models:**

750mm long, 643mm high, 200mm deep, 40kg 110 or 220 Volts, 150 Watts

**enoline 8 specifications:**

• **Room temperature models:**

970mm long, 643mm high, 200mm deep, 45kg, 110/220 Volts, 30 Watts

• **Refrigerated, climate controlled or dual temperature models:**

1190mm long, 643mm high, 200mm deep, 65kg, 110 or 220 Volts, 150 Watts
