

# enomove

The innovation of our enomove is designed to provide completely mobile wine service. It is ideal to serve customers at the table in a restaurant, at a function, corporate event or for mobile wine tastings. The opportunities are endless.

The 8 bottle models offer 3 pour volumes and are available as both room temperature and temperature controlled models.

The enomove incorporates batteries that are recharged overnight and/or between use.

A built-in gas regulator enables the Argon (or Nitrogen) gas cylinder to be stored within the base.

**enomove specifications:**

1500mm high, 600mm long (830 including handles), 500mm wide, 80kg, 110/220 Volts, 150 Watts.

Our enomove models are available in a wide range of stainless steel, timber and laminate finishes to suit any decor or branding.
