

# enosystem

The **enosystem** is designed in 8 bottle modules that are assembled on site to create a continuous line of bottles.

The **enosystem** modules are available with the following options:

- 1 or 3 volumes
- Wine Card activated
- Digital Price Display

Our custom-made **enosystem** modules can be tailored to your specific requirements and designed to integrate with your decor. Alternatively, we can supply a range of stainless steel cover panels to create a modern wall mounted system without the need to construct any cabinetry.

**enosystem** can be installed in any restaurant, bar or hospitality environment where the wines are served at room temperature.

**enosystem specifications:**

920mm long (880mm centre to centre), 715mm high, 200mm deep, 29kg, 110/220 Volts, 30 Watts.

enosystem Modules	Bottle Positions	Serve Volumes	Wine Card Option	Digital Price Display Option
enosystem 8/1	8	1	■	●
enosystem 8/3	8	3	●	●

**Key**  
 ■ Required with 1 Volume models

Our enosystem modules are supplied with all the essential parts and can be designed to be integrated with your own decor.
